

SAT

Our School is now a SAT Test Center

Test Center Name: INTL SCH OF TOMORROW

Test Center Number: 60162

Test Center Supervisor and Director of Guidance: Jonathan P. Ndirovey (pndirowei@gmail.com; +79031846566)

The International School of Tomorrow has taken another step up the ladder of excellence to inspire its high school students to be college ready, and as of June 1st 2013, it became an Official College Board **SAT Testing Center**. In accordance with this new status our high school student can register and take the SAT Tests on campus. College Board certified personnel, who are members of the ISoT staff, administer the Test.

SAT results are among the required packages for university admission, and are vital criteria for the new regulations derived from the International accreditation organizations and Education standards. Becoming a SAT Test Center brings forth a number of benefits for the students, the parents and the school community. The details on these issues are beyond the scope this article and could be found at www.collegeboard.org

The table below summaries some of the quantitative statistics on our SAT Center.
